

PLAN FOR STUDENTS OR STAFF WITH COVID SYMPTOMS

Kalon Prep Academy is committed to providing a safe and healthy learning environment for all our students and staff. In order to protect our staff and students and reduce the spread of Covid, we ask that students and staff with any Covid Symptoms not come to school until a negative Covid test has been obtained or until symptoms are completely gone.

Symptoms include:

- Fever or chills
- Cough
- Shortness of breath
- Body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose

Covid tests are FREE and can be done at any area medical provider or at Walgreen's.

Positive Covid tests require a 10-day quarantine.

*Because it can be stressful for students who miss school, Kalon Prep Academy staff will not require homework completion while a student is ill or quarantined. All staff will be available Fridays from 12:15-3:15pm to assist students in getting caught up once they return.

Close Contact Plan

Students and staff will be notified if there is a potential close contact with someone who has tested positive for COVID-19.

In using the guidance from state and local department officials, local medical experts, and the Minnesota Department of Education, Kalon Prep Academy is implementing the measures below:

- Students and staff will not be required to quarantine regardless of vaccination status; however, the 10-day quarantine option is recommended if unvaccinated and/or a mask was not worn.
- A Covid test is recommended 3-5 days after the close contact and that a mask is worn for 10 days following an exposure or until a negative test result is obtained.

We will continue to update you regarding any changes we make due to the challenges that COVID-19 continues to present to us. We appreciate your patience as we navigate this together.
